Summary

Front End Web Developer with React, Angular 8, Vue, Node, JavaScript, HTML5, CSS3, SASS, SCSS. Based in Romania. Interested also in remote full or part-time jobs with CSS3, SCSS, React.js and Vue.js.

Specialities:

- # HTML5, CSS2/CSS3, SCSS, LESS, Bootstrap4
- # ReactJs, JavaScript (ECMAScript 6), jQuery
- # Photoshop, Gimp & Paint 3D,
- # Agile Scrum working Methodology
- # Git, Bitbucket, Jira, Kanban, Confluence, CLI(bash, iTerm), version control(GIT) & DVCS
- # Self-taught developer with interest in simplicity, performance, security and new technologies
- # Fluent in Romanian and English (I can get by in Spanish and Italian)

About me:

Frontend Developer using HTML, CSS, Angular 7+, React and Vue. Common libraries of use: Axios, Redux, react-router, redux-thunk. Common use of UI libraries: Bootstrap 4, React-Bootstrap and Material-UI.

Along with my 5 years experience as front end developer, I've accumulated strong programming and communication skills which have aided me in my ability to work with a diverse population and solve technical problems. I love collaborating with other engineers to make things happen. While working in a team, I encourage clear communication, transparency and a clearer sense of purpose, resulting in better team results and a higher sense of satisfaction for all involved.

I value the ability to not only perform web development work but also be able to express my creativity in other forms, thus in my leisure time, I enjoy writing(<https://www.linkedin.com/in/cosminapalade/detail/recent-activity/posts/>) and cooking healthy recipes, food(<https://cosminanutrition.wordpress.com/>).

Key skills include:

- # Proactivity and clear communication
- # Estimating time and costs for projects
- # Transparency and clear sense of purpose
- # Ensuring the code is efficient and performant
- # Banking and Financial Services Domain
- # Know Your Customer (KYC)

Tools used for productivity and development:

Coding: IntelliJ IDEA || Visual Studio Code.

Work productivity & self-organization tools: Pomodoro || Trello.

Experience

Software Engineer | JavaScript | React | AngularJS | CSS3

Tradeshift

Apr 2019 - Present (1 year 4 months +)

Technologies: CSS3, HTML 5, LESS, JavaScript, ES6, React, Angular1, Kubernetes and front-end testing framework (Jest)

Challenges – Solutions:

- Use and contribute to creating machine learning-powered features(in collaboration with backend team).
- Integrate machine learning-powered features into Tradeshift frontend codebase.
- Build beautiful, robust, cross-device compatible UI and features, and ensure there is sufficient coverage with automated tests
- Build reusable code and libraries for future use, collaborating with the team in an Agile/Scrum environment
- Ensure the technical feasibility of UI/UX designs
- Work with other teams on implementing machine learning-based solutions.
- Engage in discussions about and contribute solutions towards making both incremental and drastic changes in our frontend framework
- Write high-quality, tested, peer-reviewed code

Front-End Developer | Business Owner | Nutritionist

Cosmina's Kitchen Adventures

Oct 2018 - Apr 2019 (7 months)

Technologies: CSS3, HTML 5, SCSS, JavaScript, ES6, SEO, WordPress, Bootstrap 4, Blog software, Content Management System, Content Management Framework.

Challenges – Solutions:

- What is the idea behind my Business? — The main idea is to present a different way of cooking and eating. I name it safe and light cooking for its simplicity and few ingredients.
- What is the mission of my Business? — My mission is to create a complete nutrient-dense food, which recharges your body with vitamins, minerals, proteins, and carbohydrates in order to sustain a balanced diet and healthy lifestyle. I aim for the food I create to have a proper ratio of lean protein, natural carbs, and healthy fats, a natural source of nutrients.

Front End Developer | Javascript | TCIB | CSS3

Temenos

Oct 2015 - Sep 2018 (3 years)

Technologies: CSS3, HTML 5, JavaScript(jQuery), Agile Scrum Methodology, edgeConnect, TCIB, T24, Temenos UXP, Java, Wealth, Corporate and Retail Suite.

Challenges – Solutions:

- Implement layouts and UI components using standards-compliant HTML and CSS, JavaScript and proprietary UX platform;
- Communicate with the business team and validate requirements;
- Propose, explain and promote new interface guidelines and design patterns, participate in the creation of mock-ups;
- Stay informed of advances in interactive techniques, technologies, and methods, and adapting to a rapidly evolving industry space
- Working with Temenos UXP (previously known as edgeConnect IDE) on Temenos Internet Banking Retail, Corporate and Wealth on client's Projects in different locations like Luxembourg and Dublin, Ireland.
- Leveraging Temenos UXP widgets for Temenos Marketplace. (<https://marketplace.temenos.com>)

Frontend Software Engineer | Javascript | CSS

HP

Oct 2013 - Sep 2015 (2 years)

Technologies: CSS3, HTML 5, Agile Methodology, UXP Design, Photoshop, JavaScript (jQuery)

Challenges – Solutions:

- Responsible for designing, coding and modifying websites, from layout to function and according to a client's specifications.
- Strive to create visually appealing sites that feature user-friendly design and clear navigation.
- Regular exposure to business stakeholders and executive management, as well as the authority and scope, to apply my expertise to many interesting technical problems.
- Strong understanding of UI, cross-browser compatibility, general web functions and standards.
- Constant communication with colleagues.
- Deep expertise and hands-on experience with HTML, CSS, JavaScript, JQuery, and API's.
